OBJECTIVE

Specializing in Financial/Accounting software. Proficient in software configuration and leveraging knowledge of accounting Terminology. Proven experience in managing complex projects, developing partnerships and exemplary communications kills, driven by enhancing customer satisfaction through tailored solutions.

EXPERIENCE

Knowledge Net — August 2021 – Present

Software Implementation Consultant

Led full-cycle implementation of financial software solutions for 5+ major clients across the MENA region—including SNB, BSF,D360 ..Etc.—ensuring alignment with financial operations and seamless deployment.

Delivered on-site and remote go-live support.

Managed multiple WatheeqEdge platform projects, developed in partnership with SBM as part of Saudi Arabia's Tanfeeth program. Oversaw the design and integration of system gateways with the Watheeq platform under SAMA's regulatory framework, successfully implementing the solution across major Saudi banks to centralize financial transactions between government and financial institutions.

Gang to define project objectives, success criteria, and delivery timelines—ensuring all phases were completed on time, within budget, and in line with client expectations.

Facilitated end-user training programs across departments, promoting effective system adoption and smooth organizational transition during digital transformation initiatives.
